

## GERMANY DISAVOWS SINKING OF ARABIC

ANNOUNCES MORE STRINGENT ORDER TO SUBMARINES.

Bernstorff in Note to Lansing Explains Fully His Government's Desire to Eliminate Cause of Differences.

Washington, Oct. 5.—Germany has acceded to the American demands for settlement of the Arabic case. The imperial government, through its ambassador, Count von Bernstorff, disavows the sinking of the vessels, announces that it has notified the submarine commander who made the attack, expresses regret for the loss of American lives, and agrees to pay an indemnity to the families of Americans lost.

Official Washington was both gratified and relieved by the diplomatic victory. The communication delivered to Secretary Lansing today by the ambassador pursuant to general instructions from his government spread absolute confidence that there would be no more submarine controversies between the United States and Germany, for the document reveals that stringent orders have been given to submarine commanders to prevent a recurrence of such incidents as the Arabic.

Since this case embraces the principles for which President Wilson contended in his notes on the torpedoing of the Lusitania and Falaba, concessions made by Germany to the American viewpoint were generally regarded tonight as paving the way for amicable settlement of all the cases.

Count von Bernstorff left here tonight expressing the confident hope that relations between Germany and the United States would continue to improve.

With settlement of the Arabic controversy the dispatch to Great Britain of the long delayed American note on interference with trade is expected within a few days.

It was not until the German ambassador submitted his letter at nearly 1 o'clock today that the change in the relations between Germany and the United States became definite. Secretary Lansing carried it to the White House and shortly afterward announced its text, which follows:

"My Dear Mr. Secretary: Prompted by the desire to reach a satisfactory agreement with regard to the Arabic incident, my government has given me the following instructions:

"The order issued by his majesty the emperor to the commanders of the German submarines—of which I notified you on a previous occasion—has been made so stringent that the recurrence of incidents similar to the Arabic case is considered out of the question.

"According to the report of Commander Schneider of the submarine which sank the Arabic, and his affidavit, as well as those of his men, Commander Schneider was convinced that the Arabic intended to ram the submarine.

"On the other hand, the imperial government does not doubt the good faith of the affidavit of the British officers of the Arabic, according to which the Arabic did not intend to ram the submarine. The attack of the submarine was undertaken against the instructions issued to the commander. The imperial government regrets and disavows this act and has notified Commander Schneider accordingly.

"Under these circumstances my government is prepared to pay an indemnity for American lives which, to its deep regret, have been lost on the Arabic. I am authorized to negotiate with you about the amount of this indemnity.

"I remain, my dear Mr. Lansing, "Yours very sincerely,

(Signed) "J. von Bernstorff."

Secretary Lansing made no comment on the ambassador's letter except to remark that it spoke for itself. He was much pleased over the conclusion of the case, because since the sinking of the Arabic he inaugurated the idea of personal negotiations in Washington. This method of exchanging views was welcomed by Count von Bernstorff, too, particularly as he has had no means of direct communication with his government. To this lack of communication has been attributed much of the ill feeling that characterized the earlier stages of the submarine controversy.

Today's events spread satisfaction everywhere not only at the White House and state department, but at the German embassy as well.

Farmers Well Up Gathering Crop—Chain Gang Doing Fine Work—Fine Yield of Sorghum.

Special to The Herald and News. Prosperity, Oct. 6.—We are having fine rains which will be helpful to the gardens, etc. Also to the health of the community, as it had gotten to be so dry and dusty.

Farmers have moved along nne with the gathering of their crops owing to the nice weather we've had. Cotton has opened rapidly and greatest portion is open.

With the price around 12 cents, though, will help to balance up for the short crop. Had the price been the same as last year it would have hit the farmer so badly crippled financially until he wouldn't have gotten over it shortly.

The chain gang was camped near Cannon's Creek church for a little more than a week some three or four weeks ago, and put the roads in fine shape from the Halfacre and Ruff section by way of Cannon's Creek church on to Mr. Jno. C. Neel's.

Mr. Teague, who was head guard, knows how to work convicts and roads. Special mention should be made of the fine work done on the two hills near Mr. Jno. C. Wicker's, which were almost impassable in places. The road was made wider and put in good shape. If these roads were kept dragged occasionally now it would be a great help towards keeping them in good shape. Mr. W. B. Franklin, who is an experienced hand, put a portion of the above mentioned road in fine shape recently with the drag.

The writer planted one-sixth of an acre in sorghum cane of the "ribbon" variety last spring and thought probable we would get about 25 or 30 gallons. We took it to the mill of Mr. Benj. Halfacre & Sons, who are fine syrup makers, and when they had finished with the making of it we were notified that we had made 48 gallons. Mr. Clyde Wilson and sister, Miss Thelma, spent last Saturday night and Sunday at the home of Mr. and Mrs. S. A. Rikard of Long Lane.

Mr. J. Lawson Long of Newberry spent last Sunday at the home of his father, Mr. M. M. Long.

Miss Eunice Halfacre, daughter of Mr. and Mrs. Benj. Halfacre, has been elected to teach Union school next session.

Communion services will be held at Colony on next Sunday.
